Note: Since 2000, Lazarus Department Stores have improved from an average error rate of 6% to 2004's average error rate of less than 1%

Note: Due to recent interpretations of Ohio law and Handbook 44, only if a sample of 100 or more is used may any enforcement action be taken. It is the policy of this Office to consider an error rate greater than 2% a failing inspection, no matter the number of items inspected.
